SmartCow

an integrated infrastructure for increased research capability and innovation in the European cattle sector

Stakeholders engagement

Chairs: Florence Macherez, Idele (task leader), René Baumont, INRA (coordinator)

EAAP Annual Meeting
Dubrovnik – 27th August 2018
1. Introduction

- **Objectives of Stakeholders’ commitment in Smartcow**
  - Ensure that the results of the SmartCow project have maximum impact and that methodologies and tools are broadly disseminated and appropriated throughout the cattle production chain
  - Ensure relevance of activities for the pre- and post-farm gate industries, advisory bodies, farmers’ organisation
  - Building an advanced community

- **Who are potential Stakeholders of Smartcow?**
  key players and experts in the field of sustainable agriculture, animal nutrition, genetics, health and welfare, farming technologies, climate impacts... from research, industry, advisory bodies, farmers’ organisations, NGOs, policy makers
SmartCow – Stakeholders Engagement

• **Role & benefits**
  - **Obtain regular information**, updates on progress, outcomes, results, methodologies of SmartCow
  - **Consultation, to contribute to refine**
    - Dissemination and Exploitation Plan (DEP)
    - Priority topics for:
      - transnational Access (TNA) calls
      - trainings & study tours
  - **Contribution to dissemination**
    - Dissemination of SmartCow methods & results
    - Promotion of access to Research Infrastructures (RI)
    - Promotion of harmonised methodologies and best practices
  - **Direct participation in**
    - TNA calls (application, possibly jointly industry & research consortia)
    - Trainings: physical (on RIs) & on-line (no tuition fees)
    - Study tours
## SmartCow – Stakeholders Engagement

<table>
<thead>
<tr>
<th>Main Results that will benefit to stakeholders</th>
<th>Potential use</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inventory of animal RIs, research databases/sample, equipment and techniques (WP1)</td>
<td>Better overview of services, tools &amp; technologies available for cattle research</td>
</tr>
<tr>
<td>TNA access procedure, TNA calls (WP2)</td>
<td>High quality research project proposals</td>
</tr>
<tr>
<td>Common guidelines, standards and experimental protocols (WP3)</td>
<td>Use by research community and stakeholders for further experiments</td>
</tr>
<tr>
<td>Cloud-based data platform (WP3)</td>
<td>Access for further research &amp; meta-analysis. Integration &amp; sharing of data from other projects</td>
</tr>
<tr>
<td>Improvement of ontologies for bovine phenotypic traits and environment conditions parameters (WP3)</td>
<td>Testing and using of new ontology traits in relation to a sustainable animal production. Systemic approach to animal breeding</td>
</tr>
<tr>
<td>Main Results that will benefit to stakeholders</td>
<td>Potential use</td>
</tr>
<tr>
<td>-----------------------------------------------</td>
<td>---------------</td>
</tr>
<tr>
<td>Refinement and standardization of optimised methods for measurement of dietary nutrient uses and gas emissions by cattle (WP5)</td>
<td>Creation and use of standard approved methodologies</td>
</tr>
<tr>
<td>Standard guidelines for using the most promising proxies of feed efficiency and its components in beef and dairy cattle (WP6)</td>
<td>Use by research community and stakeholders for further experiments. Phenotyping tools for selecting cattle based on feed efficiency and its determinants</td>
</tr>
<tr>
<td>New methods reducing the constraints in animal experimentation (WP6)</td>
<td>Use by the research community and stakeholders for further animal experiments</td>
</tr>
<tr>
<td>Quantitative methods of data analysis for phenotyping of cattle based on behaviour (WP7)</td>
<td>Improve the power of experiments</td>
</tr>
<tr>
<td>Ethical guidelines specifically for cattle trials (WP8)</td>
<td>Provision of commonly accepted standards for cattle trials</td>
</tr>

SmartCow – Stakeholders Engagement

• **Different levels of interactions**

1. **European:** *EU Stakeholder Platform*  1 meeting p. year (Brussels)
   Around 14 European representatives of branch organisations + SmartCow partners

2. **National:**  **10 national workshops on partners’ RIs**
   Around 20 to 50 participants per country

3. **South, East-EU countries, international:**
   ICAR annual meetings (workshops)
   EAAP Annual meetings (SmartCow sessions)

*Enrolment:*

email to: Rene.Baumont@inra.fr or Florence.macherez@idele.fr
Stakeholders requested to sign a Secrecy agreement
## SmartCow – Stakeholders Engagement

### Members of the European Stakeholder Platform

<table>
<thead>
<tr>
<th>Organisation</th>
<th>Type</th>
</tr>

2. First feedbacks from stakeholders

**Expectations:**
- Access to project result and outcomes: databases, mapping of infrastructures & databases, harmonised methodologies
- More coherence in EU cattle research
- Find proxies for phenotyping complex traits using specific new technologies
- Co-funding for research projects via TNA
- Via TNA calls: experiments on projects’ RI and on topics not addressed by JRA
- ...

**Recommendations:**
- Synergies with existing projects and ongoing initiatives in similar domains
- Large data sharing encouraged but difficult to implement
- Supporting academia & industry partnerships under TNA calls
- Enlarge Stakeholder platform to other NGOs and consumers
- Preparation for an “advanced community”
- ...

**Contribution to dissemination**
- results, TNA calls and trainings information in their networks

**Participation**
- trainings, study tours
- application to TNA calls, co-funding
3. Stakeholders consultation (3’ each)

— What do you expect from SmartCow?

— Do you intend to concretly contribute to dissemination among EU stakeholders, industrial and technical researchers?
  • Dissemination of SmartCow methods & results among members & networks
  • Promotion of access to RI, harmonised methodologies & best practices

— Do you intend to participate in:
  • TNA calls application (alone? jointly with research organisations?)
  • Physical trainings on RIs & on-line trainings, Study tours

— Do you have recommendations for:
  • Dissemination and Exploitation
  • Priority key research topics for Transnational Access (TNA) calls
  • Priority topics for trainings & study tours
